DryTips®

The ultimate saliva control

- Outperforms saliva collection of cotton rolls or other pads by a long way
- Ideal for impressions, orthodontics, composites, fissure sealing, fluoride treatments etc.
- Effective coverage of the parotid gland canal and buccal mucosa. Ideal for protection during air polishing.
- Stays in place comfortably and at the same time can be easily removed with water spray
- Available with reflective coating for better visibility in the working field

Prophy Polishing Cups From the Prophy Experts!

YOUNG®

Without
Latex &
BPA

Traditional Web™
Designed to deliver more prophy paste to the tooth surface for efficient stain and biofilm removal. Recommended for all patients with average to large teeth.
Short latch length.

Elite™ Flex™,™ extrasoft and **Elite™ Original**, soft.
Internal and external ridges adapt to tooth surface. Reduces splatter and facilitates interproximal cleaning. Moderate stain and plaque removal. Recommended for all patients and those with sensitive gag reflex.
Short latch length.

Petite Web™
Fits especially well around the contours of the tooth. Recommended for all patients, especially those with small to normal-size teeth and patients with a sensitive gag reflex. **Short latch length.**

*Hello
Spring*

- Two-colour formula to quickly and easily identify plaque (turns newer plaque red and older plaque blue)
- Show little patients exactly which areas are repeatedly missed when they brush their teeth
- Simple application and individual packaging mean they are well-suited for at-home use, helping children and adolescents improve their dental care routine at home

- Bibs are child-sized, measuring 24x23 cm
- Pre-folded for individual retrieval
- Paediatric dental bibs are impermeable to moisture
- Reverse side coated with polyester
